N. Y. State Association of Nurserymen
L. I. Nurserymen's Association

As a home for growing things, Long Island might well be known as America's "Green Thumb" jutting into the Atlantic. OAK PARK NURSERIES, INC., since 1888 has been adding to that reputation for fertility.

OAK PARK craftsmanship has built a tradition of fine tree and shrub production. Today, using the best of care and stock, skilled nurserymen at OAK PARK are reaping a sixty-seven year harvest of knowledge, skill, and integrity to provide trees and shrubs for the finest landscapes in America.

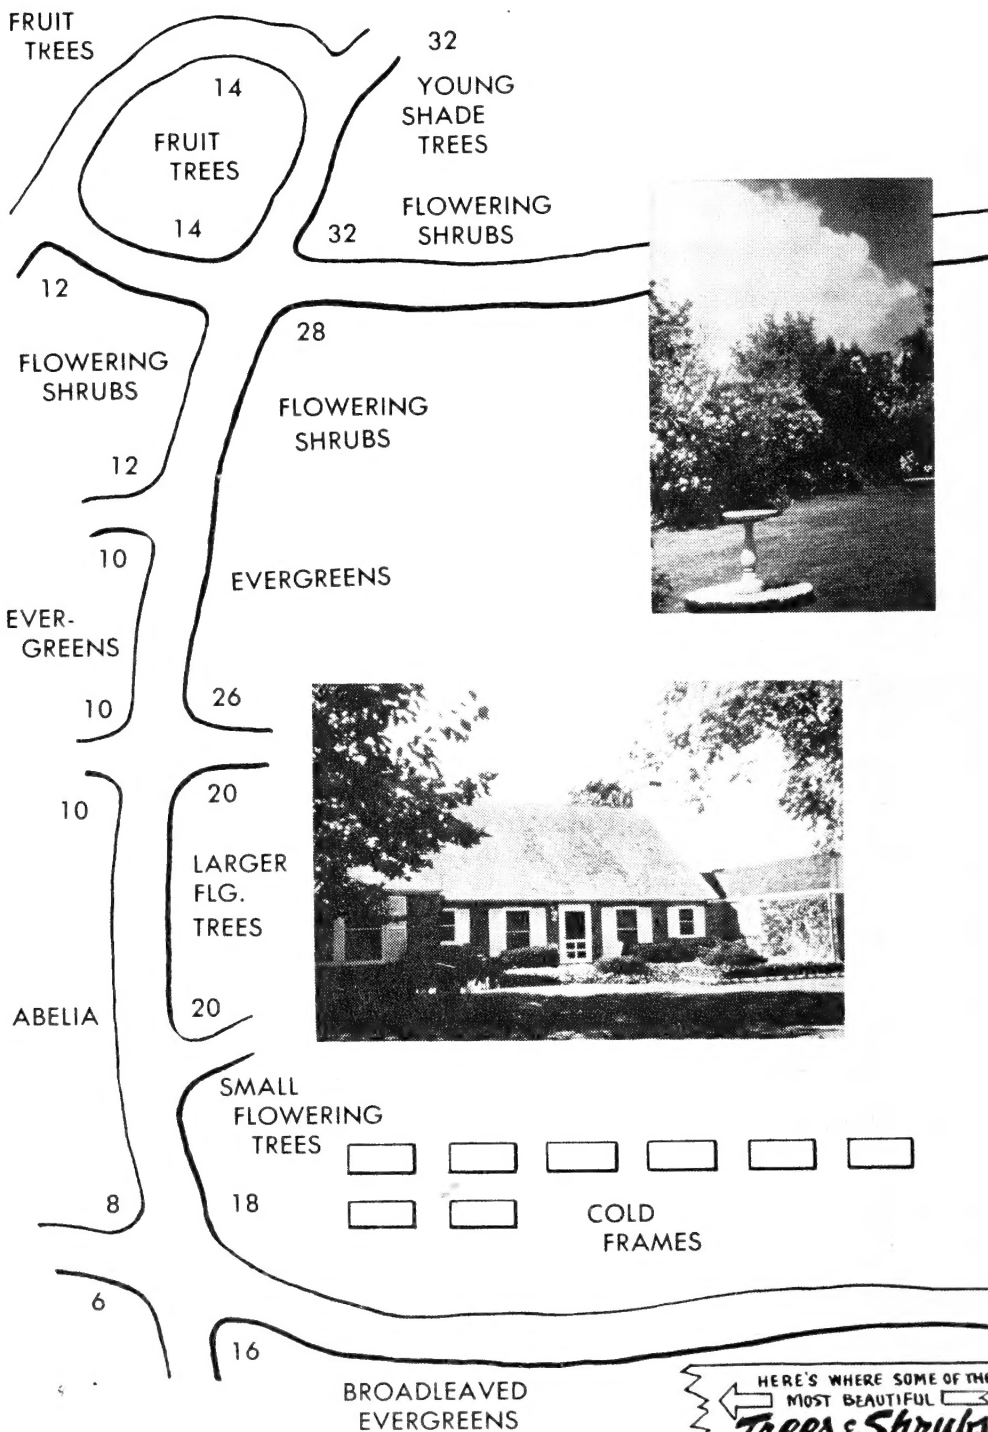

OAK PARK's best advertisements are planted around the homes of literally thousands of satisfied customers. Your friends are surely numbered among them. If so, ask one about the quality of OAK PARK stock and service. Purchasers, past and present, are our best salesmen.

Your home is your greatest social asset . . . and your appearance in the eyes of neighbors can be no nicer than the setting in which you live. Assure your home of respectful attention. Arrange your landscape with planters who for over half a century have commanded the respect of homeowners throughout this area.

For trees, shrubs, and landscape stock . . . see OAK PARK.

VISITORS ARE

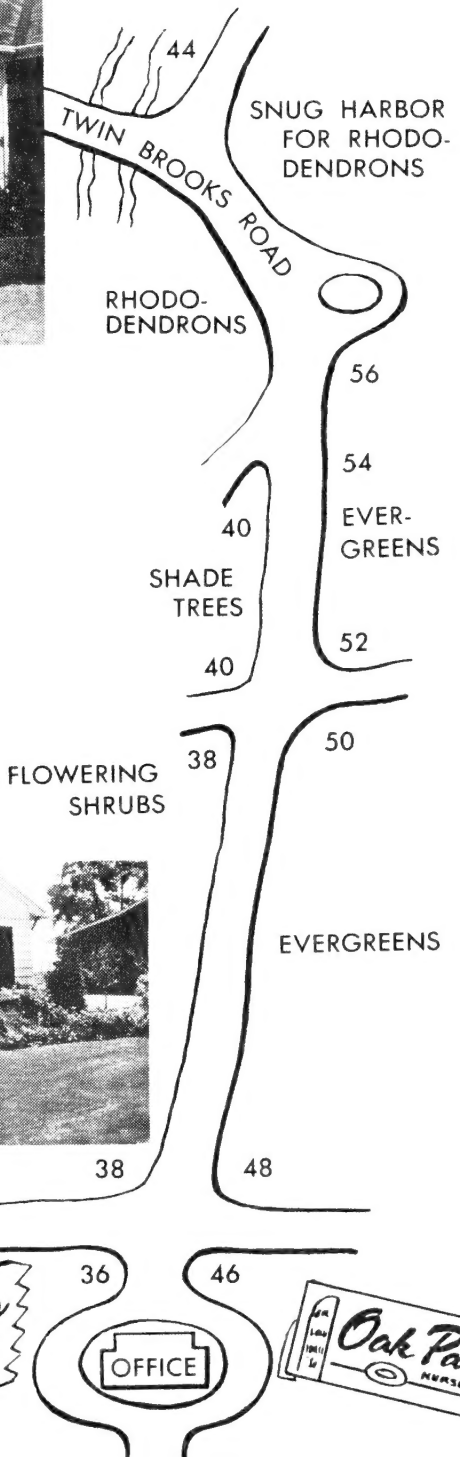

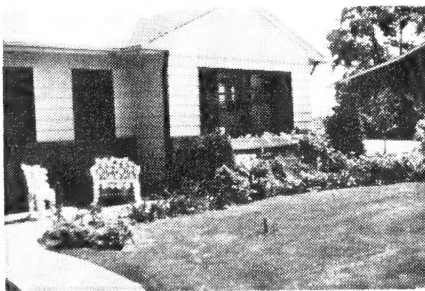

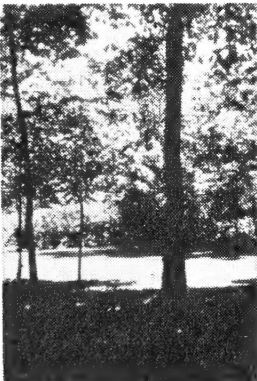

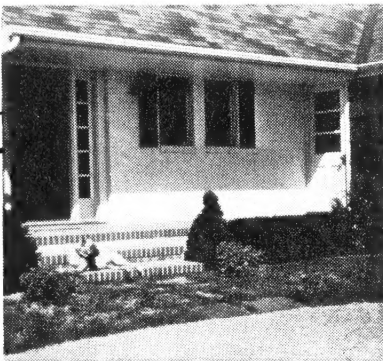

OAK PARK's facilities cover an area of 70 acres. The tract is beautifully laid out, with a well marked visitor's route. May is the month for spectacular viewing, but at anytime of year the tour through provides a display of nature's beauty. OAK PARK is open to visitors

ALWAYS WELCOME

every day . . . the office is open every day except Sunday.

The photos below are examples of typical plantings by Oak Park Nurseries, Inc. . . . with trees and shrubs grown on our own 70 acre tract at East Patchogue, Long Island, N. Y.

NUMERALS following plant names indicate approximate height of plant at maturity:

Block
No.

Abelia grandiflora 3'

GLOSSY ABELIA

Shiny dark green foliage. Profuse pink flowers from June-July to frost.

9	Small, 10-12" spread	B&B	\$ 1.20
12	Small, 12-15"	B&B	1.80

16	14-16'	2½-3"	24.00
24	14-16'	3-3½"	36.00

Actinidia arguta 30' BOWER ACTINIDIA

Twining vine. White blossoms in July. Green-yellow fruit.

12	Pot grown	\$ 1.80
----	-----------	---------

Akebia quinata 15' FIVELEAF AKEBIA

Twining vine. White blossoms in May. Purple fruit.

12	3 years old	\$ 1.80
15	4 years old	2.25

Albizzia julibrissin rosea 35' MIMOSA or SILK TREE

Small ornamental tree. Light pink flowers in Aug. and Sept. Very dainty leaves.

22	3-4' high	\$ 3.30
26	4-5'	3.90
36	5-6'	5.40
44	6-8'	6.60

Amelanchier canadensis 30' DOWNY SHADBLOW

Snow white flowers in early Spring. Deep maroon fruit.

15	2-3' high	\$ 2.25
26	3-4'	3.90
3	4-5'	4.50
66	5-6', heavy	B&B 9.90
1	6-8', heavy	B&B 15.00

Ampelopsis quinquefolia 35' VIRGINIA CREEPER

Vine of rapid growth. Broad green leaves, turning rich crimson in Fall.

9	Medium	\$ 1.35
12	Large	1.80
15	Extra Large	2.25

Ampelopsis quinquefolia engelmanni 35' ENGELMANN CREEPER

Much smaller leaves than above.

8	Medium	\$ 1.20
---	--------	---------

Ampelopsis tricuspidata (veitchii) 35' BOSTON IVY

A favorite climber. Clings to brick, masonry, rocks and stumps.

9	Medium	\$ 1.35
12	Large	1.80

Ampelopsis tricuspidata Lowii 35' GERANIUM CREEPER

Small leaved variety of above.

13	Pot grown (4" pot)	\$ 1.95
----	--------------------	---------

Amygdalus (in variety) 10' FLOWERING PEACH

Similar in appearance to fruiting trees, but somewhat smaller. Showy double blossoms in early Spring.

Block

No.

9	6-8' high	B&B	\$ 13.50
12	6-8' heavy	B&B	18.00
16	8-10' heavy	B&B	24.00
22	10-12' heavy	B&B	33.00

Amygdalus persica alboplana 10'

DOUBLE WHITE FLOWERING PEACH

Amygdalus persica Clara Meyer 10'

FLOWERING PEACH

Blossoms pink with ruffled edges.

Amygdalus persica Helen Borchers 10'

FLOWERING PEACH

Very large pink blossoms.

Amygdalus persica rosea plena 10'

DOUBLE PINK FLOWERING PEACH

Amygdalus persica rubro plena 10'

DOUBLE RED FLOWERING PEACH

Arctostaphylos uva-ursi 3''

BEARBERRY

Good ground cover. Tolerates seaside exposure.

(Fall, 1955)

Aristolochia sipho 30'

DUTCHMAN'S-PIPE

Vine of rapid growth with brownish flowers.

(Fall, 1955)

Aronia arbutifolia 8'

RED CHOKEBERRY

White flowers in May and June. Red berries and crimson foliage in Fall.

1	18-24'' high		\$ 1.50
12	2-3'		1.80
15	3-4'		2.25

Aronia arbutifolia brilliantissima 8' RED CHOKEBERRY

An improved variety with brilliant red berries.

1	18-24'' high		\$ 1.50
12	2-3'		1.80
15	3-4'		2.25

Azalea arborescens 4'

SWEET AZALEA

Deciduous. Low, broad plant. Pink-white blossoms in June. Fragrant.

45	2-2½' high heavy	B&B	\$ 6.75
56	2½-3' heavy	B&B	8.40
7	3-4' heavy	B&B	10.50

Azalea calendulacea 6'

FLAME AZALEA

Deciduous. Lemon yellow, orange to red blossoms in June. Fragrant.

38	15-18'' high	B&B	\$ 5.70
4	18-24''	B&B	6.00
5	2-2½'	B&B	7.50

SEASHORE PLANTING

Many of our customers call on us to do planting in locations severely exposed to high winds and salt spray. Unless the existing conditions are given very careful consideration and the problem is approached wisely, plantings of this nature can be very disappointing and costly ventures. Ask us for information about such plantings.

Lonicera morrowi 8' MORROW HONEYSUCKLE

White flowers during May and June, followed by red berries in July and August on wide spreading plants.

9	18-24" high	\$ 1.35
11	2-3'	1.65
15	3-4'	2.25

Vinca minor 6" COMMON PERIWINKLE or MYRTLE
Splendid ground cover. Glossy green foliage and small, light blue flowers.

per 100

18	Medium (2¼" pot grown)	\$ 27.00
26	Large (3" pot grown)	39.00

Replace Those "Worn Out" Shrubs

Take a good look at the plants around the foundation of your house. Aren't some of those old shrubs rather ordinary looking, overgrown, not particularly ornamental? If some of your plants have outlived their usefulness and beauty, ask them to leave right now. Fill their places with newer, better, more flowerful plants. There are times in gardening, you know, when you must be ruthless. Dig out as well as plant. Unless you keep changing your garden, it's bound to get stodgy-looking and decidedly middle-aged.

Block
No.

Vinca minor bowles 6" **BOWLES MYRTLE**
Similar to above, but more hardy.

per 100

24 Medium (2¼" pot grown) \$ 36.00

Experience is a Great Teacher

Since 1888 OAK PARK NURSERIES has been growing trees on Long Island's fertile acres, and the tradition of conscientious craftsmanship has never ceased. Nothing has been spared to make OAK PARK trees and shrubs the finest that can be produced. Skilled nurserymen, using the utmost care and the best of stock, are the creators of today's OAK PARK trees—trees that fully express over sixty years of knowledge, skill, and integrity.

FRUIT TREES AND BERRY PLANTS

Certain varieties are self-unfruitful, but will bear fruit if planted with another variety. It is always good practice to plant at least two different varieties of each kind of fruit. Ask us for detailed information concerning planting distances, orchard layouts, spraying, feeding and pruning.

Proper Planting Makes Homes Enchanting

One of the finest assets in society is a home that commands respect. One of the surest guarantees of a favorable first impression of your home is an OAK PARK landscape planting. OAK PARK has been growing high quality trees for over half a century. People who give preference to quality depend upon us because they know that, with reasonable care, an OAK PARK planting continues to look well and grow well for years to come.

48	6-7'	4.25	7.35

ORGANIC PLANT FOOD

Dehydrated cow manure from the famous Walker-Gordon dairy farms. Use liberally at time of planting without fear of burning. No odor. No weed seeds. Clean and easy to use.

50-lb. bag\$ 2.85

PEAT MOSS

Finest quality horticultural peat moss. It acts both as a soil conditioner and mulch. Mix it with topsoil and fertilizer when planting, and use it as a mulch on top of the ground after planting. Builds humus in the soil, helps hold moisture, and controls weeds.

Carton (6 loose bushels)\$ 3.75

The Joy of Ownership

There is more than just ordinary pride in the possession of a fine tree. It belongs to the group of personal articles for which a person develops affection—his watch—a fine car—his dog. To the true lover of beauty a fine tree is like a picture or a beautiful sculptured piece in his home. Watching it grow and having it admired by friends is a joy. Caring for it is a happy occupation.

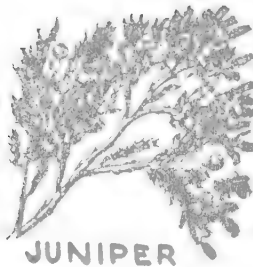

HOW WE DO BUSINESS

. . . Some of the Services We Offer

**We Try to Do Business the Way You Like It Done
—Not Just to Suit Us. Please Read Carefully.**

Consultation and Making of Plans:

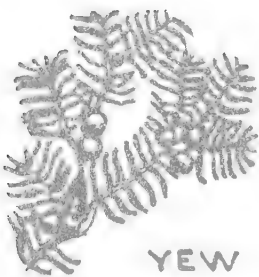

For suggestions and advice by mail or at our office there is no charge. If you bring your property measurements and sketches or photos, we will be pleased to help you. However, as the time required to visit your property, take measurements and notes and prepare a detailed survey and plan depends upon distance and other conditions, it is impractical to quote costs beforehand. Often-times the cost of this service can be deducted if the resultant order justifies it.

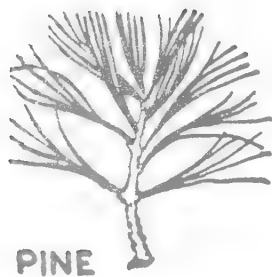

JUNIPER

Photographs:

If you are contemplating buying large trees and it's inconvenient for you to come to the nursery to see them, we will send you photos. We use the Polaroid-Land camera that takes and develops a picture in one minute, so they can usually be mailed to you the same day your request is received.

YEW

PINE

Prices quoted cancel previous quotations, are subject to prior sale and to change without notice. Prices are F.O.B. East Patchogue. Unusually heavy specimen plants will be priced proportionate with their values. On our invoices—

x = Heavy plant
xx = Extra heavy specimen

Terms are cash, excepting established accounts, to which we will gladly extend 30 days credit, or longer if specific arrangements are made at time of sale.

Terms to wholesale customers buying on open account (charge account) are 2/10/30, meaning 2% cash discount (on nursery stock only) for payment within 10 days, 30 days net, unless other arrangements are made at time of sale and appear on the order. Should you not receive your invoice within 10 days, pay from your green acknowledgement copy and any small difference will be adjusted later. Interest at 6% on overdue Spring accounts starts on June 1st and on overdue Fall accounts December 1st.

To New Wholesale Customers:

Please use your printed letterhead or business card when you write us.

SCHEDULE OF BALLING CHARGES (B&B)

The specification "B&B" in this list signifies digging with ball of earth enclosed in burlap, which, where indicated, is included in the price. For digging all other plants B&B there is an additional charge as follows:

Shade and Flowering Trees, and Flowering Shrubs

Height		*Caliper	
18-24"	\$.60	1-1 1/4"	\$ 3.00
2-3'	.75	1 1/4-1 1/2"	4.00
3-4'	1.15	1 1/2-1 3/4"	4.75
4-5'	1.65	1 3/4-2"	5.50
5-6'	2.75	2-2 1/2"	7.50
6-8'	4.25	2 1/2-3"	10.00
8-10'	6.00	3-3 1/2"	13.50
10-12'	7.80	3 1/2-4"	20.00
		4-5"	25.50
		5-6"	32.50
		6-7"	42.00
		7-8"	54.00

*Caliper means diameter of trunk 6" above ground on trees up to 6" caliper and 12" above ground on larger trees. Wherever given, use caliper sizes to determine B&B charges.

CYPRESS

Vines and Climbing Roses

Small	\$.75	Large	\$ 1.50
Medium	1.00	Extra Large	2.50

Length of Runners

2-3'	\$.75	6-8'	\$ 4.50
3-4'	1.50	8-10'	6.00
4-5'	2.25	10-12'	7.80
5-6'	3.50		

B&B Platforms: Charges for platforms will be rebated or credited to your account when they are returned to us in good condition at your expense. Send them by prepaid motor or rail freight if it is inconvenient for you to deliver them. Our platforms have a brass nameplate, so we will not accept others in exchange.

Platforms Charges

24" square	\$ 3.25	48"	\$15.00
30"	4.50	54"	20.00
36"	7.50	60"	30.00
42"	10.00	66"	40.00
		72"	50.00

Packing and Boxing, where necessary, will be charged for at cost.

Shipment: We ship by our own trucks, motor and rail freight, railway express and parcel post. Delivery beyond local limits is charged for at cost.

Planting: We can furnish to a limited extent experienced planting foreman and plantsmen if you wish. The cost of this service is more than offset by the satisfaction of knowing that your plants have been given the right start.

Visitors are welcome at all times. You are cordially invited to walk or drive over our several miles of good roads and inspect our collection of hardy plants.

Responsibility and Standing: We refer you to the commercial agencies or satisfied customers in your vicinity, a list of which we will gladly send you on request.

Business Hours: We are open six days a week (not on Sunday) from 7 a. m. until 5 p. m. during our shipping seasons and from 8 a. m. until 4:30 p. m. during Summer and Winter. Closed at noon on Saturdays in Summer and Winter.

BUDGET YOUR PLANTING

Don't let the over-all cost, just because it may be more than you want to spend this year, keep you from enjoying the beauty of a new planting. It may be budgeted in one of two ways. Either do the entire planting and arrange payment terms to suit your convenience, or, working from a master plan, do one or more distinct sections at a time and pay as you go. Don't waste your time, efforts, and money by just "setting out" a few plants here and there. Work toward the ultimate completion of a well-defined plan and be assured that each plant will be placed in its permanent position at the outset and be part of a pleasing composition.

GUARANTEE:

We guarantee every plant to be true to name, up to grade, and in good condition when it leaves the nursery. We will replace without charge any proved otherwise, provided it is reported promptly. We will replace at the first proper planting season at one-half original cost any plant sold at list prices and planted by us in a location approved by us that dies within six months provided it has received proper care and the account has been paid in accordance with our terms. The customer pays for delivery and planting at cost. This guarantee does not cover losses due to droughts, storms, severe winters, insect injury, disease, or other factors beyond our control. Should we not have the same plant in stock, we reserve the right to substitute the nearest variety and size of equal value. We do not guarantee plants transplanted from one location to another on customer's property.

As there are many factors beyond our control after plants leave the nursery, we cannot be wholly responsible for losses. Once a plant is on your property we lose control over it, so, since your care will largely determine whether it lives or dies, we feel that you should assume part of the responsibility in the event it dies. However, during our many years in business here, despite serious droughts and other adverse weather conditions, we were called upon to replace less than 1% of the many thousands of trees and shrubs we planted for our customers. Ask us for our latest pamphlets giving complete information on planting and care of trees and shrubs.
